- Cockpit Table
- Gangway

## **Descriptions provided by the construction site**

The Ferretti 530 offers all the advantages and capabilities of a top-of-the-range yacht in a length that is easy to manage. It was developed by a partnership between Ferretti Engineering and the Zuccon International design studio. The powerful lines of the yacht provide a visual confirmation of its high performance, while the flybridge, perfectly equipped for exterior dining, makes living in the sea air comfortable and relaxing. As always, interiors show superb detailing, and they are constructed using the finest materials. This is particularly evident in the bright salon with double dinette, the comprehensively-equipped galley, and the cockpit bridge linked to the quarters below decks. The master cabin in the bow has a comfortable private bathroom, and the other cabins are also extremely spacious. Together they offer the owner and guests all the comfort and style typical of a Ferretti yacht.
